SUMMARY

I am a hard working, honest individual. I am a good timekeeper, always willing to learn new skills. I am friendly, helpful and polite, have a good sense of humour. I am able to work independently in busy environments and also within a team setting. I am outgoing and tactful, and able to listen effectively when solving problems.

To secure a responsible career opportunity, I'll fully utilized my training and skills while making a significant contribution to the success of the company

TRAINING/CERTIFICATIONS

ANDROID
MOBILE
APPLICATION
TRAINING

PROJECTS

Foodnagar website

Actually, this is my own website which was built by myself only. This website serves as an online representation of a dining establishment, providing information about the restaurant, its menu, location, contact details, and more.

<https://github.com/rrabir12/foodnagar>

Universitynote Website

This is my own Website which was built by myself.
and this website provide the notes related to the particular courses in nepal and detail description about the courses in nepal.

<https://github.com/rrabir12/universitynotes>

Portfolio website

this websites shows the sample portfolio which shows that the project done and details. in this project i have use react js

<https://github.com/rrabir12/portfolio>

Stopwatch

this is a stopwatch like as in our mobile or watch .
it use to count the time and i have build this using js

<https://github.com/rrabir12/stopwatch>

Expense Tracker

this is website is build using the react js in the purpose of tracking the expenditure that we have done in our daily life.

<https://github.com/rrabir12/Expense-tracker>

Text-manipulator

This website is build using the react js for the purpose on manipulating the typed text like copy, converting in upper or lower case, selecting, counting the length and many more.

<https://github.com/rrabir12/Text-manipulator>

Temperaure-converter

This website is build for practising my js and this website is used to convert the temperature .

<https://github.com/rrabir12/Temperature-converter>

E-commerce Website

This E-commerce website is build using php.

In this website, there i have put most of the things that should be in ecommerce website like main page, shop page, user login, cart page, contact page and admin login etc.

<https://github.com/rrabir12/E-commerce-Website>
